

Thank you!

Thank you so much for your purchase and supporting small!

I hope you have a lot of fun with the sunburst stamp pack.

I would love to see what you make with this! So make sure to send me a picture or tag me *@laura.design ;)*

How to install the procreate brushes:

1. Download the file and save it on your iPad
2. Look up the file and klick on it (Procreate should recognize the brushes and upload it automatically)

or

1. Download the files
2. Open up Procreate and go to your brushes
3. Click on the plus sign in the right corner
4. Click on import (right corner) and select the downloaded file

Caution: *If downloaded as a .zip file unzip the package first*

Some tips along the way:

- ◆ If you don't want the stamp to orientate to the screen you can change the settings in the brush properties (click orient to screen - off)
- ◆ You can change the brush position in your library by tap and hold, then move it to the desired position

If you have any trouble with the files, some feedback or critique make sure to let me know! A short review would mean a lot to me :)

Now let's go and create something awesome!

Love & sunny days! xo
