

## Raise a glass to the New Year with this elegant, vintage inspired Art Deco header font.

This first edition of New Year Deco is the introduction to an experimental design that I hope will evolve into the ultimate in Art Deco fonts. Starting with 4 alternative styles with varying degrees of decorative flourish, this all-caps design is tailor-made for invitations, award ceremonies, elegant title designs and logos.

It includes unique uppercase and lowercase characters, along with numerals, punctuation and language support. And also includes a variety of illustrated symbols, underlines and icons for an extra graphic touch. See the visuals for more.

For the future development of this font I encourage my customers to contact me with suggestions and requests. If you would like to see a bolder, thinner, fatter, taller or wider version, contact me and I'll add it to the next update!

### Contents:

- New Year Deco Regular
- New Year Deco Alternative 01
