

Thank you for purchasing my Ribbon Lettering Brush Set and for supporting my small business.

In the set, you received 20 brushes which includes some color changing brushes. \*You will have to make sure to vary the pressure you apply as you letter to see the color change. The color you choose from your color wheel will be your lightest pressured strokes.

The Magic Brushes will change color as you apply pressure while you letter.

The 2 Tone brushes will do the same. However, with the 2 Tone you will need to choose your Primary and Secondary colors in your color wheel. This set allows you to have more control on what color blends you want for your lettering.

You can use the Ribbon Airbrush to add shadows and highlights and then use it as a Smudge tool to smooth the colors.

You also received a Color Palette and 4 Paper Textures. These are in a ZIP folder. You will have to unzip the folder first before being able to download the files.

I would love to see your designs so if you're on Instagram, feel free to tag me at @myfancydesignshop

If you have any questions, please message me and I would be happy to help you out.

A handwritten signature in a cursive script, reading 'Tanya', in a light orange color.
